AMC
YOUR SECURITY CHOICE

Index

![AMC logo - YOUR SECURITY CHOICE]
AMC Elettronica was founded in 1974 and the first product designed by the company was in collaboration with the University of Pavia - this being the Microwave detector "RIVELA". It immediately obtained a huge response in the Italian and the foreign market. Within a few years the Company established itself as a successful player within the Security Sector despite this to be still an unknown sector in the Italian Industry, the most impact caused by the high quality design and local production of the detectors. In the 80's AMC decided to launch the Alarm Control Units, Diallers and Sirens to the already now well established detector market. In the mid 80's the EL80 was launched - the first AMC' Alarm Control Unit, while four years later the first dialler with vocal synthesis, the CT901SV was introduced to the market. The 90's indicated a revolutionary change in the security market and AMC was ready to meet this demand by launching the first remote controllable and radio system. AMC, always moving with the times, on and on this occasion, at the Milan's International Security Fair in 98' presents the C136 Alarm Control Unit, a fully pc programmable system via modem, and the CR100 system, a completely lithium-ion battery supplied radio alarm system.

Today AMC has a well established international distribution network, featuring excellent products, "made in Italy" and especially paying attention to detail when designing the products. This has been well recognised in the industry, testimony to this is the numerous awards received for meeting customer needs and expectations. AMC is a wholly Italian owned company. Their main activity is the production and the commercialisation of Alarm components. The company's headquarter is in Alzate Brianza which is located near Como and only 30 km north of Milan, which can be reached with ease via the A4 and A8 highway - pretty centrally and easily reachable from all 3 main Airports, i.e. Bergamo, Milano Linate and Milano Malpensa. AMC has a test laboratory and a fully automated production line for the SMT technology electronic boards. To greater guarantee the product, the business seeks further approval from outside authorities, authorised to inspect the equipment continuously to allow to maintain the high quality.

HYBRID CONTROL PANELS

KSeries

EN 50131 / GRADE 2 / CLASS 2

The **K Series** are security control panels for building protection; hybrid system (wired and wireless input).
EN 50131, Grade 2, Class 2 approved. The control panels are equipped of 4/8 zones, expandable to 16/64. It is possible to obtain more zones by double and triple EOL split line (K4V - K8V).

K Series are able to notify one or more situations of ALARM, ROBBERY, TAMPERING and TROUBLE with different carriers:
- **PSTN LINE on board** (voice beep calls**, Contact ID, SIA fsk, etc.)
- **GPRS/4G module** (voice beep calls**, SMS, Contact ID, DC09 IP protocol for Contact ID and SIA IP)
- **IP / IP Wi-Fi module** (DC09 IP protocol for Contact ID and SIA IP)

The programming can be made with keypad and/or PC software. The programming with software can be made remotely with IP module and/or GPRS/4G module.

** The K Series have not voice synthesis, the calls are made with beeps

KX-AL

Remote power supply

KX-AL is a remote power supply controlled from panel via bus RS485.
- Main power 230 V or 110 V
- Output Power 27 W (13.8 Vdc @ 2A) + 8 W for backup battery charger
- Battery charger with different selections (18Ah and/or 7Ah)
- Electronic overcurrent and overload protection
- Tamper for remove and opening system
- 8 inputs and 3 outputs expansion
- Completely diagnostic checks with panel and monitoring software

388

315

BATTERY BOX
- Possibility of use in stand-alone mode
- Possibility to use up 2 power supply for each panels installation
- Dimensions: W 315, H 388, D 95 mm

KX-IN

KX-IN is a **8 zones expansion module** with auto protection tamper box.
Dimensions: W 106, H 80, D 25 mm

KX-OUT

KX-OUT is a **3 relay outputs expansion module** with auto protection tamper box.
Dimensions: W 106, H 80, D 25 mm

IP modules for connecting panel to Cloud

Usable for CMS messages, Cloud service, App management,
remote programming, video verification etc.

IP-1
(only for K&X control panels)

IP module for connecting panel to Cloud.

IP-1 W
(only for K&X control panels)

Wi Fi

IP module with **Wi-Fi on board**, for connecting panel to Cloud without cables by connecting with home Wi-Fi network.

Communication modules for mobile network

Usable for voice call, SMS, CMS messages, Cloud service,
App management, remote programming, video verification etc.

KX-PB
Transponder

Proximity device for arm, disarm and partial arm the control panel. IP54
To use with KX-TAG and KX-KEY.
Available colours: white
Dimensions: W 86, H 100, D 33 mm

KX-PS
Transponder

Device for civil series with 1 unit. Four signalling leds for system status and control. To use with KX-TAG and KX-KEY.
Dimensions: W 30, H 20, D 50 mm

KX-TAG

Badge with RFID tag, for arm and disarm the control panel.
Dimensions: 85 x 54 mm

KX-KEY

Keychain in ABS black, IP68, with RFID tag for arm and disarm the control panel.
Dimensions: 60 x 25 x 6 mm

COM/USB

Adapter for programming control panels

Wireless expanders

K-RADIO800

32 characters LCD keypad with an integrated radio receiver

Two-way wireless system
868 | **866** | **869.675** | **916** | **921** MHz

It is a keypad with an integrated radio receiver on serial bus with the ability to store 32 two-way radio devices of different types: remote controls, detectors, smoke detectors, inertial etc. Thanks to 128-bit AES encryption (Advanced Encryption Standard) ensures maximum protection against attempts of cloning or masking signal. The power of transmission of the radio signals from the various devices is managed and limited by control panel to a sufficient value, thus increasing the average life of the batteries. The communication between the control panel and devices is bidirectional for each type of transmission which must be confirmed by the receiver, allowing to obtain the maximum safety concerning the outcome of communication and to avoid congestion of the radio signals. The operations of installation and maintenance are made easier by the total lack of switches and potentiometers hardware; all devices are configurable by the control panel. The learning mode of the devices can be automatic by means of self-learning by the control panel or manually by means of coding of each individual device. Dimensions: W 135, H 116, D 24 mm

EXPR800 Radio expansion

It is a radio receiver on serial bus with the ability to store 32 two-way radio devices of different types: remote controls, detectors, smoke detectors, inertial etc. Thanks to 128-bit AES encryption (Advanced Encryption Standard) ensures maximum protection against attempts of cloning or masking signal. The power of transmission of the radio signals from the various devices is managed and limited by control panel to a sufficient value, thus increasing the average life of the batteries. The communication between the control panel and devices is bidirectional for each type of transmission which must be confirmed by the receiver, allowing to obtain the maximum safety concerning the outcome of communication and to avoid congestion of the radio signals. The operations of installation and maintenance are made easier by the total lack of switches and potentiometers hardware; all devices are configurable by the control panel. The learning mode of the devices can be automatic by means of self-learning by the control panel or manually by means of coding of each individual device. Dimensions: W 37, H 130, D 27 mm

WIRELESS CONTROL PANEL
Quick and easy set entirely via App by QR code

LARIO
Smart Control Panel

* Wi-Fi on board **Wi Fi**

* 4G connection (optional)

* Two-way wireless system

* Fast setting installer App

* Free user App

* Backup battery included

* Free update system by Cloud

* Long range radio transmission

* CMS multiformat

WIRELESS SYSTEM ACCESSORIES

800 Series

EN 50131 / GRADE 2 / CLASS 2

Compatible with all the AMC control panels

LARIO | ViTA | KSeries | XSeries

800 Series communicates with the control panel by a bidirectional digital radio transmission channel to avoid signal collisions or band saturation and ensure high stability and precision. The 128 bit AES encryption code guarantee an high security.

Accessories

K-LARIO
Wireless keypad
(Compatible only with LARIO control panel)

It has 4 signaling LEDs for arm/disarm status and anomalies. It is powered by 3 AAA batteries, or with external 12V power supply. It allows 3 programmed profiles and button for enable/disable scenarios. Dimensions: W 135, H 116, D 24 mm
Order Code: **K-LARIO:** 868 MHz

OUT800
Wireless output board
(Compatible only with LARIO control panel)

It is a expansion board with 2 free contact relay (COM - NC - NO) (5 Amps) for scenery building automation. It is powered by external power of 12 Vdc. It is also supervised (automatic life test). It has autoprotection tamper box. Dimensions: W 106, H 80, D 25 mm
Order Code: **OUT 800:** 868 MHz

RP800
Wireless repeater

It is able to repeat all the signals coming from all wireless systems 800 Series: 32 wireless devices, 20 keyfobs, 4 wireless keypads, 4 wireless sirens. It is powered by external power of 12Vdc and it has rechargeable batteries with duration of 24/48h without main power. It is programmable via software with wireless devices codes or in self learning mode. Dimensions: W 106, H 80, D 25 mm
Order Code: **RP 800:** 868 MHz

TR800
Pocket remote control

Programmable 4 channels radio remote controller. The standard lithium-ions battery allows a very long duration.
Dimensions: W 42, H 58, D 13 mm

Order Codes:
TR 800-WG: 868 MHz, white with grey keys
TR 800-GW: 868 MHz, grey with white keys
TR 800-BG: 868 MHz, black with grey keys

Detectors

IFV800

Wireless PIR detector with integrated Wi-Fi camera

It is a PIR detector with a high resolution camera. The transmission of the pre-post alarm video is sent through the integrated Wi-Fi module on board and view with the App AMC Plus.

The transmission by Wi-Fi technology allow fast data exchange with the Cloud, consequently IFV800 is very performing in terms of upload video time and quality in case of alarm. It is possible modify the quality of video with internal menu of detector that can be programmed direct via Wi-Fi. It is equipped with an infrared illuminator for low level light of the room. The images are sent to the Cloud through the home Wi-Fi network.

The system can be managed through the App **AMC Plus**:

- DOWNLOAD PRE-POST ALARM VIDEO FROM CLOUD
- VIDEO RECORDINGS ON REQUEST THROUGH THE CLOUD, AT ANY TIME
- PUSH SYSTEM NOTIFICATIONS

- Power supply: 6 - 15 Vdc
- Backup battery: Lithium 2032 - 3 V
- Consumption: min 90 mA - max 115 mA
- Digital PIR
- Range PIR: 12 mt
- PIR lens: Fresnel 22 patterns on 3 levels
- Wi-Fi standard 802.11 b/g/n

- Camera angle: 120°
- Camera lens: 2.8 mm
- Camera sensor: 1/4 inch
- Camera resolution:
  160x120 - 320x240
  352x288 - 640x480 - 1024x768
- Frame pre-post alarm: 16

Dimensions: W 65, H 130, D 40 mm
Order Code: **IF V800:** 868 MHz, white colour

AMCPlus
VIDEO VERIFICATION

IF800

Wireless volumetric detector

It is a 15 mt range wireless infrared detector with more than 90° angular range thanks to its 31 beam lens. It is provided with an anti-opening tamper protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration. Dimensions: W 60, H 110, D 46 mm
Order Code: **IF 800:** 868 MHz, white colour

IF800/P

Wireless volumetric detector, pet immune

Like IF800 but available pet immunity up to15 kg.
Order Code: **IF 800/P:** 868 MHz, pet immune, white colour

IF800/T

Wireless curtain effect detector

It is a wireless infrared detector, with an adjustable range from 1 mt up to 5 mt, designed to realize a "curtain shape" protection barrier useful for doors and windows or everywhere is necessary to detect a movement that happens in only one direction. It is provided with an anti-opening tamper protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration. Protection class IP54. Dimensions: W 130, H 37, D 37 mm
Order Codes: **IF 800/T:** 868 MHz, white colour   /   **IF 800/T-M:** 868 MHz, dark brown colour

WIRELESS SYSTEM ACCESSORIES

800 **Series**

EN 50131 / GRADE 2 / CLASS 2

Compatible with all the AMC control panels

LARIO | ViTA | KSeries | XSeries

800 Series communicates with the control panel by a bidirectional digital radio transmission channel to avoid signal collisions or band saturation and ensure high stability and precision. The 128 bit AES encryption code guarantee an high security.

Detectors

GS800
Wireless glass break detector

It is a detector for the notification of glass breakage. It has an adjustable range up to 7 mt. It is provided with anti-opening tamper protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration. Dimensions: W 37, H 130, D 27 mm
Order Codes: **GS 800:** 868 MHz, white colour / **GS 800-M:** 868 MHz, dark brown colour

SS800
Wireless seismic detector

It is a small device; it has 2 completely separable and partitionable configurable inputs: an internal micro seismic detector and a clamped input for an external generic contact. It is provided with anti-opening protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration. Dimensions: W 37, H 78, D 21 mm
Order Codes: **SS 800:** 868 MHz, white colour / **SS 800-M:** 868 MHz, dark brown colour

SF800
Wireless smoke detector

It is a stand-alone wireless smoke detector designed for protection of small areas. It is an optical smoke detector that uses the Tyndall effect to verify the presence of combustion particles in the air. In particular, reveals cold smoke and visible (with the combustion particles sized between 0,3 μm and 2 μm). It is equipped with a 9-volt battery and emits a modulated sound, compatible with the evacuation signal when it detects smoke. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration. Dimensions: Ø 120, H 55 mm. Order Code: **SF 800:** 868 MHz, white colour

SOUTDOOR800
Outdoor wireless detector

It is an outdoor double PIR detector, pet immune. It is a full digital detector (with 2 digital PIR), with an analysis system devoid of the classical noise that occur with the use of traditional analog PIR. Through the use of fully digital PIR, the detector is protected from white light masking and has much higher efficiency in the discrimination in its action range. Even with the significant temperature variations, the digital temperature compensation system guarantees a high efficiency. It has a range of 15 mt, with an opening angle of 90°. Protection class IP65. Dimensions: W 85, H 185, D 66 mm
Order Code: **SOUTDOOR 800:** 868 MHz, white colour

Contacts

CM800 MINI
Extra small magnetic contact

It is a very small device; it has 2 completely separable and partitionable configurable inputs: an internal REED and a clamped input for an external generic contact. It is provided with anti-opening protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration.
Dimensions: W 25, H 50, D 17 mm
Order Codes: **CM 800 MINI:** 868 MHz, white colour / **CM 800 MINI-M:** 868 MHz, dark brown colour
CM800
Small magnetic contact

It is a small device; it has 2 completely separable and partitionable configurable inputs: an internal REED and a clamped input for an external generic contact. It is provided with anti-opening protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration.
Dimensions: W 37, H 78, D 21 mm
Order Codes: **CM 800:** 868 MHz, white colour   /   **CM 800-M:** 868 MHz, dark brown colour

CU800
Magnetic contact

It has 3 completely separable and partitionable configurable inputs: an internal REED, a clamped input for an external generic contact, a clamped input for fast contacts (rolling shutter, glass brake) with adjustable sensibility. It is provided with anti-opening protection. It is also supervised (automatic life test). The standard lithium-ions battery allows a very long duration. Dimensions: W 37, H 130, D 27 mm
Order Codes: **CU 800:** 868 MHz, white colour   /   **CU 800-M:** 868 MHz, dark brown colour

Sirens

PZ800
Indoor wireless siren

It is an indoor wireless, bitonal, piezoelectric siren.
The housing is made in ABS. The standard lithium-ions battery allows a very long duration.
Dimensions: W 73, H 123, D 47 mm
Order Code: **PZ 800:** 868 MHz, white cover

SRL800
Outdoor wireless siren

It is a two-way supervisioned wireless siren. It has two different way of programming; autolearning and/or by code. It is powered with 3.6V 18Ah Lithium batteries included. Possibility to power with external power supply with 4V to 15V 200mA max. It is provided with anti-opening and back tampers protection; high efficiency LED light. Memory alarm signals, arm/disarm signals.
Protection class IP54. Dimensions: W 210, H 295, D 70 mm

Order Codes:
SRL 800:
868 MHz, white cover, red light
SRL 800 WW:
868 MHz, white cover, white light
SRL 800 WB:
868 MHz, white cover, blue light

HIGH QUALITY DETECTORS

PRO LINE
PROFESSIONAL DETECTORS

ProLine detectors uses only digital PIRs, thus avoiding the conversion that generally must be done in traditional detectors, where the analog PIR is amplified and converted to digital.

Thanks to the TOTALLY digital technology, the detector is much more accurate in detecting intrusions and not suffering of alterations such as: white light, ultraviolet light, temperature, air movement due to heating/cooling systems and it is totally immune to radiated and conducted electromagnetic disturbances.

ProLine detectors are equipped with lenses designed by AMC and made by Fresnel Technologies, Inc. **LODIFF®** technology for optics realization in combination with **POLY IR®** materials make it a product with highest quality and efficiency.

All ProLine detectors are pet immune with range of 15 mt, with 100 degrees angle.

LODIFF® and POLY IR® are registered trademarks of Fresnel Technologies, Inc.

IR 1
EN 50131-2-2 / GRADE 2
**Digital PIR** detector with EOL resistors

DT 1
EN 50131-2-4 / GRADE 2
**Dual Technology** detector with EOL resistors

DT 1 AM
EN 50131-2-4 / GRADE 3
Dual Technology, **Anti-Masking** detector with EOL resistors

Full digital PIR
The detector has no analog components, the full digital PIR is connected directly to the microprocessor.

Ultraviolet stabilization POLY IR®4 material for lenses
The lens is molded in POLY IR® materials. These materials offer the best combination of transmittance, environmental stability, and color of any polymer. Materials available for the 8-14 micron region of the infrared.

LODIFF® Fresnel Lens Technology
The lens array is made by tiling pieces of LODIFF® lenses. These lenses offer significantly improved performance over typical constant-groove-width Fresnel.

White light protection
The detector is digitally filtered from white light.

High RFI protection
Thanks to the total lack of traditional amplifiers, the detector has a very high RFI immunity.

Anti-masking
Anti-masking protection activated from 1 to 30 cm from the detector.

ITALIAN DESIGN
The ProLine detectors represent the best choice for residential and industrial installations in the security sector.

Pet immunity

ProLine detectors are pet immune up to 15 Kg, thanks to the new lens design combined with the digital analysis system.

OUTDOOR DETECTORS

Soutdoor/T

EN 50131-2-4 / GRADE 2 / CLASS 4

Triple technology detector (2 PIR, 1 microwave)

* Settable by PC

- Graphic visualization of each technology coverage
- Consultation of the statistics of violations of the individual technology for the detection of false alarms
- Free configuration of all the outputs available to the detector

- PRESET storage according to installation requirements
- Pre-alarm configuration using one or more detector's technologies
- Internal memory events, to verify which technology has generated alarm
- Double anti-masking with active IR
- No. 3 freely configurable output relays for the alarm, masking, blinding and malfunction functions
- Input of block detector (exclusion microwave when the system is disarmed)
- Trimmer coverage regulation in the function stand alone
- Led two-colour Red and Green
- No. 6 Dip switches for the various configurations

* Possibility of changing and combining different kinds of lens for any specific requirement

INDOOR SIREN

PZ2

PZ 2 is a indoor, bitonal, piezoelectric siren, suitable for all installations need. This product is entirely made of ABS.
It is equipped with anti-opening and back tamper switches.
Sound power: 108 dB at 1mt
Power supply: 12 Vdc
Available Case colour: white
Dimensions: W 135, H 95, D 45 mm

SPEECH DIALLER
WITH 4G MODULE

VOX-4W

VOX-4W is a **GSM** dialler remote-controlled bidirectional 5-lines configurable as inputs and outputs. It has listening environment, the outputs can be managed by voice call, text messages and phone calls with CALLER ID recognition. The phone numbers are freely assignable to voice calls and SMS.

- 5 terminals that can be programmed as inputs and/or outputs
- **Remote listening**
- Reset terminal calls
- 12 user codes
- 8 phone numbers can be associated with events and all the rest
- 200 telephone numbers used only for the activation of the outputs from the remote (ring and/or sms)
- 1 technical code
- 1 call reset code
- Life test sending
- Credit
- Dimensions: W 140, H 120, D 35 mm

AMC
YOUR SECURITY CHOICE
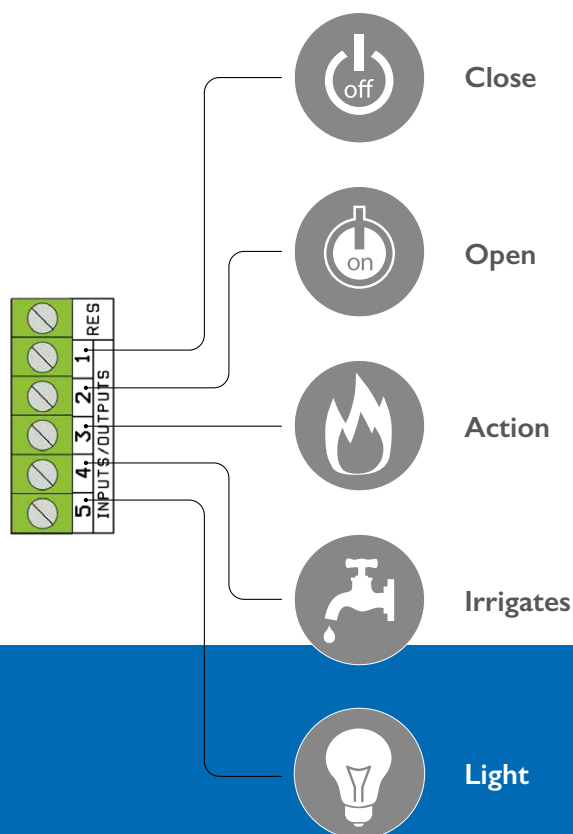

AMC has successfully assimilated the change in the market, overcoming every challenge thanks to a close-knit team passionate about its work. In a world where globalisation is the key word of the economy, AMC aims to achieve its objectives by projecting itself towards new horizons and goals, without ever forgetting the experience and the old values on which it is based and through which it has developed. Honesty, commitment and constant attention to the changing market are the foundation of our business.

Quality from experience **made in Italy.**

AMC Elettronica
